Object: REACH Statement of the COGEBI Group

Ladies and Gentlemen

we the COGEBI Group confirm that we are fully aware of the rules given by the Directive **No. 1907/2006 (REACH Directive)** of the European Parliament and the Council. Based on that we are providing the following statement:

- We are strictly following the REACH Directive.
- We are not a primary producer of any chemicals used in our plants and according to the REACH Directive we are consequently not obliged to register them.
- We will ask our suppliers to confirm their (pre-)registration of all chemicals which we use in our plants.
- For any case of chemical matters and preparations being imported from countries located outside the EU we will do all necessary steps in conformity with the REACH Directive. At this moment there is none chemical in our plants which would require the (pre-)registration process from our side.
- Our final products are in general preparations and have no status of dangerous chemical matters.

Yours sincerely

Ing. Jiří Málek

General manager COGEBI a.s.
